SILAP 2009 Style Guide
[Center Title, Bold, 18-point Times New Roman]

Author name(s) [12-point type, centred]
Author’s affiliation and address (italics, 12-point, centered)
Author’s e-mail address: (italics, 12-point, centred)

Abstract: 35-word limit. The abstract should summarize the contribution and contain the relevant key words.

This document reflects the style guide for conference submissions, provided for the sake of uniformity. The target length is one page. Please do not use page numbers. Please use 12-point Times New Roman for the body text. Contributions will be printed on US Letter paper: 8.5 in by 11 in (21.6 cm by 27.9 cm). Please use US Letter format with 1-in (2.5cm) margins on the top and bottom and 1.25-in (3.2 cm) margins on the sides.

Indent the first line of each paragraph by 0.25 in (0.63 cm). Justify the text at both right and left margins. Insert a 12-point space after the title, author email, the abstract, and each paragraph.

Fig. 1 Scenery from Zion National Park. A long waterfall falls behind some trees.

Figures or tables may be embedded in the text. No part of a figure or caption should extend beyond the typing area. Figure captions can be centred beneath figures or placed to the left side, in 10-point font. Equations that are not embedded in the text should receive an equation number, in parentheses right justified.

\[ E = mc^2 \] (1)

References should be included at the end of the contribution, in a 10-point style, and aligned left. Within the main text, references should be designated by a number in brackets [1]. Two references use a comma [1,2] and more use a dash [1–3].
